

For business. For family. For life.

ARBUTHNOT LATHAM
Private Bankers
Since 1833

Client Testimonial

Gary Rhodes OBE, British Chef, Restaurateur & Author

“My relationship with Arbuthnot Latham’s Dubai team started in 2014. What we had with previous providers – a purely financial relationship – has now become a personal relationship where my wife and I feel truly looked after by the Dubai team.

Arbuthnot Latham have made everything simple and we enjoy a full range of services, including banking, investment management and lending. As I work across multiple currencies, it is important that if any economic or market changes take place then the team monitor these for me. Everything is always looked after carefully for me and I now feel I have a solid understanding of our finances and investments.

The team often present us with different options to improve and maximise upon currencies and investments, and from that they allow us to make our own reasoned decisions.

I came across a quotation that accurately summarises the way Arbuthnot Latham are always striving to provide the best service and tailoring their options to suit my needs, and I use the same thought in my own business: ‘The road to success is always under construction’. Arbuthnot Latham is always working to make things better and put their clients in the best financial position possible.”
