Client Testimonial

Steve Twydell, CEO, 3T Group

“Banking with Arbuthnot Latham reminds me of how banking used to be – having all the expertise I need at a one-stop shop. I know that if I need help, have a problem or need advice, my Private Banker is always there to help. Our strong relationship helps to build stability and trust and I am confident in the advice that I am given. With Arbuthnot Latham, you are not treated as a number and I appreciate the all-round care I receive from banking through to Wealth Management.

As an entrepreneur and business-owner, the Bank was particularly helpful when I wanted to arrange Shareholder Protection for my business. The Insurer was not initially comfortable in providing the level of cover that I was looking for; however, as the Bank knew my Business Adviser, they successfully negotiated the level of cover for me knowing what the future plans of my business were.

I really enjoy the events hosted by the Executives and Entrepreneurs team at the Bank. They are a fantastic way to network and meet useful entrepreneurial contacts – great for those who are trying to grow a business.”
