We may require additional identity documents for each Authorised Person. - 8.5.2. When you initiate a Payment Instruction the authentication will be linked to the payee and payment amount. If any changes are made to your Payment Instruction whilst the authentication is in progress, the authentication will fail and you have to re-start the authentication process.
- 8.5.3. If you are requested to authenticate a Payment Instruction, but you have not initiated such a Payment Instruction or otherwise carried out any action to this effect, you must not provide any authentication and you must contact us immediately on +44 (0)20 7012 2500.

 - b) never access the Digital Banking Services or the Digital Wallet in such a way that third parties would be able to see, access or obtain your Security Details;
 - c) keep your Security Details secret. Never disclose your Security Details to any other person or record your Security Details in a manner that may result in them becoming known to someone else. For example, do not utilise any "save Security Details" facility on your internet browser or Device whereby your Security Details are automatically saved for future use and we also recommend using a different PIN to access the Digital

Banking Services or Device to that you use for your Card;

- d) never leave your Device unattended whilst using the Digital Banking Services or the Digital Wallet, or use your Device or the Digital Banking Services in a place where people can see your screen or your Account Information. Close the relevant Digital Banking Service and Digital Wallet if you are not using it;
 - e) not install or use the Digital Banking Services or the Digital Wallet on a Device which has had any security features or restrictions imposed by the manufacturer modified or removed. When this happens, security protection is taken away and it may mean that fraudsters could access your Device and steal your information or money;
 - f) uninstall the Application or Applications from your Device if you change your Device or dispose of it;
 - g) keep the Device you use the Digital Banking Services or Digital Wallet on secure (please refer to terms 3.7.5 and 6.4.2);

 - i) always access the Online Banking Service by typing the Website address into your web browser. Never access the Website from a link in an email and then enter personal details;
 - j) always use the latest version of the Applications; and
 - k) ensure that where you receive push notifications to your device, other people cannot see the transaction details that appear on your device.
- 8.5.6. You must comply with all instructions which we may give you from time to time in relation to the operation of the Digital Banking Services, the Digital Wallet, your Security Details and security arrangements in connection with the same. For example, we may tell you that you need to use new Security Details to access the Digital Banking Services or the Digital Wallet.
- 8.5.7. We are not responsible or liable to you for any disclosure of confidential information if:
- a) you divulge your security information or Security Details to any unconsented third party;
 - b) any third party sees information concerning your Account or Card displayed on your screen;
 - c) any third party observes you when entering your Security Details;
 - d) any third party overhears any telephone call that you may make to us in connection with your Account, Card or any aspect of the Digital Banking Services or Digital Wallet;
 - e) you allow other people's biometric information, such as fingerprints, to be registered on the Device you use to access the Applications or the Digital Wallet;

f) you do not update the Applications when prompted; or

g) if you fail to contact us where you suspect that someone else knows your Security Details.

8.7. Keeping Each Other Informed

- 8.7.1. If we need to contact you, we will usually do this by telephoning you but we may use other secure methods of communication if we cannot reach you by telephone. As part of this we may have to ask you to verify your identity so we can be sure we are talking to you but **we will never contact you, or ask anyone to do so on our behalf with a request to disclose your Security Details in full.** If you receive such request from anyone (even if they are using our name and logo and appear to be genuine) then it is likely to be fraudulent and you must not supply your Security Details to them in any circumstances. You should report any such requests to us immediately.
- 8.7.2. You must ensure that your Account and Card details and other information you provided are correct and up to date. You must advise us of any change to your mobile number or email address.

 - b) we consider it appropriate for your protection.
- 8.8.6. Unless we are unable to contact you or there is a legal reason or other circumstances beyond our control preventing us from doing so, we will notify you before taking this action and provide our reasons for doing so.
